Master Pest Control

ABOUT US

MASTER PEST
CONTROL

Master Pest Control was established in 1970 duly registered and licensed by the Fertilizer and Pesticide Authority (FPA) with a license number 03-0801-215 and control number E1-51 and now registered to Food and Drug Administration (FDA) with License number CCHUHSRR-RIVA-PCO-01-ER-845506. Year after the capital increased due to the incoming clients thru recommendations of our customers and growing demands of the other people. For over 54 years, Master Pest Control has cared for more than 100,000 houses, hotels, hospitals, restaurant and high-rise offices. Mindful of structure longevity, we have applied only the safest, ecofriendly termiticide and pesticides to protect ... across the Philippines. Master Pest Control has been preserving the value of your real state, investments and preserving the environment and human health. Master Pest Control has been ensuring your investments with its service that is of highest value.

MASTER PEST CONTROL

KEY OBJECTIVES

Our mission is to provide safe, effective, and sustainable pest control solutions that promote healthy living and working environments while ensuring client satisfaction through professionalism, innovation, and integrity.

MASTER PEST CONTROL

OUR SERVICES

We offer a wide range of pest control services tailored to residential, commercial, and industrial needs:

General Pest Control

Treatment for common pests such as cockroaches, ants, mosquitoes, flies, and more.

Termite Control

Preventive and curative treatment for subterranean and drywood termites, including soil treatment, baiting systems, and wood preservation.

In2Care Mosquito Control

Advanced mosquito control system targeting larvae and adult mosquitoes using eco-friendly methods.

Exterra Colony Elimination

A strategic and efficient termite baiting system designed to eliminate entire colonies at the source.

Rodent Control

Elimination and exclusion programs for rats and mice through trapping, baiting, and structural sealing.

Ant Control

Targeted indoor and outdoor treatments to control various ant species and prevent reinfestation.

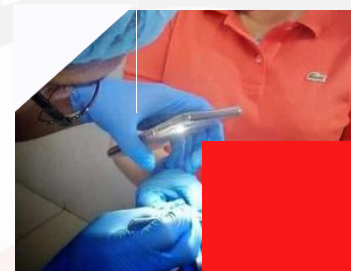

Fly Control

Integrated solutions including baiting, trapping, and sanitation for effective fly population reduction.

Integrated Pest Management (IPM) Training

Educational programs and technical training for clients seeking proactive pest prevention through environmental and structural management.

Other Specialized Services

Customized pest control services based on client needs, including fogging, misting, fumigation, and disinfection.

WHY CHOOSE US?

● Certified and Licensed Team

Our technicians are trained and accredited by relevant health and safety authorities.

● Eco-Friendly Solutions

We use safe and environmentally conscious products and techniques.

● Latest Technology

We apply advanced systems such as In2Care and Exterra for maximum efficiency.

● Customer-Centric Approach

Our pest management plans are tailored to suit specific needs and concerns

● Reliable and Responsive

We provide quick response times and consistent follow-up services.

● Comprehensive Support

From inspection to implementation and maintenance, we're with you every step of the way.

● IPM Experts

We promote long-term pest prevention through education, structural modifications, and sanitation improvements.

THANK YOU

At Master Pest Control, we believe that a pest-free environment is not just a luxury—it's a necessity for healthy living and sustainable business operations. Our commitment to quality service, environmental responsibility, and client satisfaction drives us to continuously innovate and improve. Whether you're dealing with a minor nuisance or a full-scale infestation, trust Master Pest Control to deliver safe, effective, and long-term solutions tailored to your needs.

Your safety is our mission. Your peace of mind is our guarantee.
